Day 1:

Tuesday November 30		
Tehran Time	**Speaker**	**Title of the talk**
10:30-11:45	Stecca1	Green Supply Chain Management
11:45-12:00	Break	
12:00-13:00	Pinto1	Applications for Green Supply Chain Management
13:00-14:00	Lunch	
14:00-14:30	Stecca 2	Combinatorial auction for reverse logitics
14:30-15:00	Salami 1	Conic Programming
15:00-15:30	Salami 1	Conic Programming
15:30-16:00	Break	
16:00-16:30	Empty	Empty
16:30-17:00	Naghsh 1	Max-min optimizations in active sensing and communication systems
17:00-17:30	Naghsh 1	Max-min optimizations in active sensing and communication systems

Day 2:

Wednesday December 1		
Tehran Time	**Speaker**	**Title of the talk**
10:30-11:45	Gentile1	Energy and Optimization
11:45-12:00	Break	
12:00-13:00	Gentile1	Energy and Optimization
13:00-14:00	Lunch	
14:00-14:30	Abdi	A polyhedral study of tractable set covering problems
14:30-15:00	Abdi	A polyhedral study of tractable set covering problems
15:00-15:30	Abdi	A polyhedral study of tractable set covering problems
15:30-16:00	Break	
16:00-16:30	Mahdavi	TBA
16:30-17:00	Salgado	New heuristics for ground state optimization of spin glasses
17:00-17:30	Bacci 1	Dynamic programming based formulations for power energy production

Day 3:

Thursday December 2		
Tehran Time	**Speaker**	**Title of the talk**
10:30-11:45	Ventura 1	Exact and heuristic approaches to the logistics of containers
11:45-12:00	Break	
12:00-13:00	Ventura 1	Exact and heuristic approaches to the logistics of containers
13:00-14:00	Lunch	
14:00-14:30	Marandi	Multi-stage adjustable robust location-transportation problems with integer-valued demand
14:30-15:00	Bacci 2	A new heuristic algorithm for the stochastic block relocation problem
15:00-15:30	Empty	Empty
15:30-16:00	Break	
16:00-16:30	Abdi	Two case studies: postman sets in graphs, and joins in digraphs
16:30-17:00	Abdi	Two case studies: postman sets in graphs, and joins in digraphs
17:00-17:30	Abdi	Two case studies: postman sets in graphs, and joins in digraphs
